

Welcome

Dear Doctor:

We thank you for considering Gailey Eye Clinic as your trusted partner in patient care. We want to make it as easy as possible for you and your patients to access the quality care available at Gailey Eye Clinic. You can be confident that your patients will return to your practice once their medical or surgical care is complete.

We offer the following services:

- Traditional & Laser Assisted Cataract Surgery/Premium Lens Implants
- LASIK
- Glaucoma- Medical, Laser, & Surgical Treatments
- Medical Retina Treatment
- MIGS options with Cataract surgery
- Blepharoplasty and Entropion repair
- Lesion Removal/Biopsy
- Chalazion/Abscess Incision and Drainage
- Refractive Lens Exchange

In addition to the services listed above, we are happy to consult with you on any complicated medical issues. All referrals will be co-managed in the following manner unless the referring provider requests otherwise:

After an examination by one of our ophthalmologists, you will receive a letter confirming the patient's diagnosis and any treatment plan. If a patient pursues surgery, a transfer of care form and a final summary letter will also be sent to your office.

Gailey Eye Clinic surgeons will co-manage cataract and YAG laser surgery for patients with many major medical insurance plans. For a complete list of in-network insurance plans, please have your staff contact our Patient Accounts Department at 309-829-5311 ext. 1172. If your patient has a Medicaid plan, our office is unable to co-manage from a billing standpoint. However, we can still provide surgical care for your patients with these types of plans and return them to you when their care is complete. The surgeons and staff at Gailey Eye Clinic appreciate your referrals and look forward to working with you. Please contact Morgan Hurtado, Surgical Services Manager, at 309-557-8639 or mohurtado@gaileyeyeclinic.com with any questions about our co-management protocol.

Referral & Co-Management

When referring a patient for a consultation at Gailey Eye Clinic, your staff can contact the clinic of your choice to arrange an appointment with any of our physicians. Below are some things that help ensure a smooth transition.

There are two ways to schedule your patient for a consultation at Gailey Eye Clinic.

- **By Phone:** Your staff may call any of our clinics below to reach our scheduling staff.
- **By Fax:** If you prefer our staff contact your patient directly to schedule an appointment, please fax clinical notes and indicate “call patient to schedule an appointment” on the cover sheet and we will contact them.

Information needed:

- Exam notes
- Patient insurance card(s)
- Completed Gailey Eye Clinic Patient Consultation Form (scan QR code) and/or patient demographic page

You may fax this information to any of our locations. It will become a part of the patient's Gailey Eye Clinic electronic record for documentation purposes. If you prefer an electronic means of transmitting this information, please contact Morgan Hurtado, Surgical Services Manager, at mohurtado@gaileyeyeclinic.com or 309-557-8639.

Contact Lens Patients: If possible, Gailey Eye Clinic surgeons ask that patients being referred for cataract surgery stop wearing their contact lenses before their surgical evaluation appointment at Gailey Eye Clinic.

- Soft non-toric contact lenses 7 days
- Extended wear or toric contact lenses 14 days
- Hard or RGP contact lenses 21 days
